

M-560 EXCEPTION ITEM ENCODER

MICR V ENCODER M-560

Fully Qualify Exception Items at the Point of Entry

Encoding Exception Items where they enter the system saves valuable time and money by presenting fully qualified items to the Proof Department. Encoding at Point of Entry allows the Proof and Item Processing Departments to operate efficiently, by not slowing down the process to handle exceptions in these production-oriented environments.

The M-560 Encoder offers a state-of-the-art high volume/high performance system with the following features:

- **Accurate and Reliable** - The M-560 provides the highest quality MICR encoding resulting in high MICR Read Rates.
- **Easy to Use** - With a 2-line display, the operator is prompted through every transaction.
- **Software Flexibility** - The M-560 is set up to provide full-field encoding for all financial documents. Parameters are set by your Maverick Dealer.
- **Multipurpose** - Serves as a valuable tool behind teller row for lobby deposits, counter checks, and starter kits. Used in back room departments where exception items are created. General Ledger, Stop Payment forms, etc.

MAVERICK International
